

A.L.P. Lighting Components Charlevoix, MI

A.L.P. Lighting Components, Inc., is a leading global manufacturer of lighting components, offering a diverse line of products for OEMs and the aftermarket. Founded in 1972, A.L.P. has grown from a modest, Chicago-area based operation, to an international powerhouse, with over 400 employees and nine world-class manufacturing and distribution operations strategically located throughout the U.S., Europe, Latin America and South America.

A.L.P. Lexalite® is an industry leading provider of engineered thermoplastic injection molded components. Long recognized for designing and manufacturing the finest optical lighting components, A.L.P. Lexalite also serves markets such as Medical, Marine Signal, Automotive, Signage, Point of Purchase, Electronic Equipment, Appliance and Mass Transportation.

Known for its expertise in injection molding, product and tooling design, A.L.P. Lexalite offers diverse capabilities, all of which can be combined to meet your unique requirements to ensure maximum profitability. The A.L.P. Lexalite Charlevoix, MI facility is ISO 9001:2015 certified for the manufacture and assembly of plastic components.
