

A.L.P. Lighting Components Dickson, TN

A.L.P. LexaLite® is an industry leading provider of engineered thermoplastic injection molded components. Long recognized for designing and manufacturing the finest optical lighting components, A.L.P. LexaLite also serves markets such as Medical, Marine Signal, Automotive, Signage, Point of Purchase, Electronic Equipment, Appliance and Mass Transportation.

Known for its expertise in injection molding, product and tooling design, A.L.P. LexaLite offers diverse capabilities, all of which can be combined to meet your unique requirements to ensure maximum profitability. The A.L.P. LexaLite Dickson, TN facility is ISO 9001:2015 certified for the manufacture and assembly of plastic components.

Injection Molding

- Tonnage ranges from 180 to 1500 tons
- Shot size from 4 to 260 ounces
- Mold base sizes up to 60 inches
- Servo Robot Technology
- Centralized vacuum system and dedicated drying hoppers to maximize material purity
- ISO 9001:2015 certified

Quality materials

- Acrylic
- Polycarbonate
- ABS
- Other Engineering Thermoplastics

Structural Design Engineering

Product design and consulting services for a wide range of products, with expertise in new product development from design to final production.

Tooling design and construction

Design, build and maintain high efficiency injection molds.

Metalizing

- Rapid Cycle Deposition System

UV protective coatings

Fastening and assembly

- Sonic welding
- Post molding assembly
- Fabrication/Assembly/Work cells
- Manufacturing support operations
- Warehousing
