

### General Description

This multi-purpose LED fixture kit provides a Type V distribution with a main beam of 50 degrees vertical. This combination is suited for intersection, parking garage, low-bay and other general lighting applications. The LEDs are mounted 4-12" away from the optical surface which provides excellent hiding power.

### Housing

This one-piece casting design can effectively dissipate up to 100W in a 40°C ambient temperature with an appropriate LED module. The cast aluminum heat sink is offered either raw or powder coated white. To achieve a wide, Parking Garage distribution, there are 12 internal LED board mounting surfaces which are canted 35 degrees from vertical. A new board mounting feature allows a variety of different board shapes and sizes without the need for any drilling or tapping. Boards may effectively be mounted on 4, 6, 8, 9 or 12 faces.

### Platform II Widebay16 Lens

The Widebay16 is a remote optic intended for use with POD style LED high bay and low bay sources. Unlike traditional reflectors, the WB16 is shallow so as to allow higher beam angles. Its large upper shroud flat top allows it to be easily adapted to most any fixture without the need for expensive collars. The lower lens is shaped to distribute light with wide batwing pattern, allowing for greater vertical illumination.

### Light Engine Requirements

Suitable light engines are 100W or less, not including driver. For angled face mounting, LEDs should have a 150° FWHM beam or narrower. Each LED, board, and mounting will be different and the customer is responsible for determining the suitability of their LED package with these components.

### Approvals and/or Listings

- ETL Listed to UL1598 and 8750; file sharing program available to all customers
- IP66 Rated
- NSF International certified for NSF/ANSI Standard 2 – Food Equipment

### Service Life

### Ordering Information

Please call 877-257-5841 for pricing and delivery.

### Dimensions

8.95" high  
16" diameter

### Lens Materials

Acrylic:  
Clear  
Lumieo  
Moon Glow™  
Polycarbonate:  
Clear

### Shroud Materials

Acrylic:  
Lumieo  
Polycarbonate:  
Frost

### Accessories/Options

Mounting Hook  
Clear polycarbonate latches  
White polycarbonate latches  
Silicone lens gasket

Flat LED Board Location  
Both Lynk Labs 65W and  
100W AC/DC versions

Angled LED Board Location

### Fixture Performance for Reference Only

A.L.P. LexaLite Brand Test Report 05989

Specification	PFI with WB16
Input Wattage	69.60
Delivered Lumens (lms)	6468.2
Efficacy (LpW)	92.93
Voltage (V)	120-277v

### Lumen Summary

Zone	Lumens	%Fixt
0-30	1205.34	18.63
0-40	2140.27	33.09
0-60	4194.22	64.84
0-90	5727.63	88.55
40-90	3587.36	55.46
60-90	1533.41	23.71
90-180	740.58	11.45
0-180	6468.21	100.0

### Materials

See the LexaLite<sup>®</sup> brand price list for current part numbers and material offerings. Up-to-date and detailed material specifications can be found in the Resources section on our website [www.alpadvantage.com](http://www.alpadvantage.com).

When using acrylic, the surface temperature of the lens should not exceed 80°C. When using polycarbonate. The surface temperature of the lens should not exceed 90°C.

### Quality

The Platform casting is primarily a functional industrial grade component. Our pricing is based on this expectation.

### Caution

Sharp edges may occur at several locations on the part. We urge customers to select the shot-blasted option which reduces this hazard and also to wear gloves when handling.

### Notice

A.L.P. assumes no responsibility for suitability of these materials in any luminaire or application. Please test for fit and function prior to ordering project quantities.

While A.L.P. utilizes IESNA testing procedures and believes our testing results to be accurate, A.L.P. provides photometry for reference only. Actual results will vary based on the actual light source(s) and power source(s) used, i.e. ballast, driver, generator, etc. and the combinations in which they are used, as well as operating temperatures, and other electrical and environmental variables. We urge that customers perform their own fixture qualifications prior to making performance-based claims. In no event will A.L.P. be liable for any loss or damage, including without limitation, indirect or consequential loss or damage in connection with the use of this information.
