

4SNGPG50 parking garage lens, DC-2S die cast end plug and LSS-5 stainless steel latches shown.

Description

Sentry Elite® LED combines the benefits of LED technology with the features OEMs have come to rely upon in the flagship Sentry series. Sentry Elite LED utilizes gear tray internal construction for cost effectiveness and functional practicality by minimizing required internal metal components. Drivers mount to the driver tray for thermal isolation. The Sentry Elite housing is sealed against dust and moisture and available in a variety of lens, latch, and wire-entry configurations. Suitable with use @ 40° C ambient using up to a 60W source.

NOTE: All certifications noted below are contingent upon construction and configuration. Please contact an A.L.P. Engineer for further assistance.

Certifications

- UL/cUL recognized component
- Wet Location listed
- IP65, IP66 and IP67
- IP69K Rated using 4SNGPG50 and 4SNGPGPC lenses
- NSF International certified for NSF/ANSI Standard 2 – Food Equipment

Applications

Ideal for use in dusty, dirty, or wet environments including food processing, cold storage, kitchens, parking garages, car washes, covered canopies, pedestrian tunnels, concourses, and industrial.

Features

- Rigid one piece housing construction.
- Two 1/4-28 brass studs molded into back of housing for attachment of optional mounting brackets.
- En-seal™ gasketing provides superior resistance to moisture absorption versus conventional gasketing.
- Lens retained by eight captive flush mounted latches.
- Molded latch pockets compatible with standard and tamper-proof latches in white polycarbonate and stainless steel.
- Gear trays secured to #10-32 brass studs molded into housing via threaded hex steel mounting standoffs.
- LED Module tray available for four rows of nominal 22" LED boards.
- LED Module tray suspends from housing by two security straps during servicing.

Fixture Performance for Reference Only

(See photometry)

Driver	LGITDRV48WX048A (1)
LED Module	LGITLED-1-28-40K (4)
4686.3 lm, 48.567W, 96.5lm/W	

Housing

Compression molded self-extinguishing fiberglass reinforced polyester compound with UL 5VA flame rating (ASTM D635-74). F1 weatherability rating.

Gasketing

En-Seal™ continuous perimeter poured gasket assures lens seal to housing.

Electrical Chassis

Gear trays constructed of minimum 83% reflective, 22-gauge, pre-painted steel.

Conduit Entry

Standard housings available with one 7/8" conduit entry point on either or both ends. Consult Sales for other opening sizes or for top openings.

Lens

Inline thermoformed low profile lenses available in 50% DR acrylic in clear, crepe and Lumieo. Lenses for parking garage applications available in 50% DR clear acrylic, polycarbonate and Lumieo.

Mounting

Standard 316 stainless steel straps (SBRKT-SNG-2PK) for surface mounting, or optional flush mounting bracket, serves as a mounting point for either a snap-in-place mount or a hook. Consult A.L.P. Sales for cable mounting options.

A.L.P. submitted this fixture for wet location testing in the horizontal surface mounted position. Any other operating position should be test verified by the OEM.

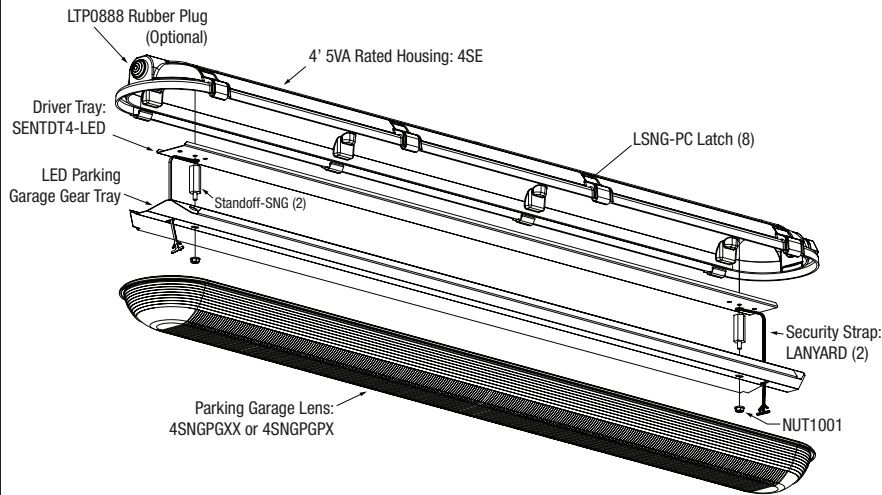

Please contact A.L.P. for pricing and delivery.

All specifications subject to change without notice. A.L.P. assumes no responsibility for these materials in any luminaire or application.

The product is an OEM component kit requiring final assembly by a qualified OEM fixture manufacturer.

Sealant required for wet location use.

Part Number	Description	
TAMPER BIT 3	Driver bit for TAMPERPRUF screw used in LSNG-TP and LSS-5TP	

- Sealant required for wet location use.
- For custom hole/feature patterns, supply Order Sheet to BBS or Customer Service Representative.
- 6 required per 2' SE hsg & 8 required per 4' SE hsg
- Includes 2 each: MBRKT-SNG, HOOK-SNG, HBRKT-SNG, LOCKWASH-SNG, HEXNUT SS1428
- Fits Bridgelux boards, EB Series
- Orders must be ordered in bag or carton qty's.
- If hardware is purchased through A.L.P. the MOQ will be based on the outsourced vendor MOQ's
